

DO YOU KNOW?

PLANETS

Video
Transcripts

Level 1

Planets video 1 (Book page 16. Is there life on Mars?)

- <0:10> This is Mars. It is hot and dry on Mars.
<0:17> We don't know if there is life on Mars, but there is ice.
<0:26> There is ice on Mars, so maybe there is water.
<0:32> Life needs water, so maybe there is life!

Planets video 2 (Book page 21. What is the bright light in Saturn's Rings called?)

- <0:09> This is Saturn. Look at its rings!
<0:20> Look at this cat's eyes. They are bright and shiny in the light.
<0:28> Now, look at Saturn's rings. Saturn's rings are also shiny in the light.
<0:35> Lots of light is coming from the Sun. They are cat's eye rings!

Planets video 3 (Book page 29. How big is the James Webb telescope?)

- <0:10> The James Webb telescope went into space on 25th December 2021.
<0:18> Scientists use it to look at stars, moons, planets and more!
<0:27> It is 6.5 metres long. That's big, look at the two elephants!
